

Vanity Teen

The self-referential narcissism of youth behind the name Vanity Teen alludes to the importance we think Adolescence plays in society. Transcending the evocative and refreshing attributes of the modern generation, today's youth is an extremely fashion and social conscious audience that clearly reflects and impacts society's mood and style.

Since publishing in 2008, we have been pioneers in featuring the future faces of fashion, art and

entertainment that will pave the wave not only in its respective areas, but also echoes the ethos of today's society. From the first influencers like Cameron Dallas, Lucky Blue Smith, Paris Brosnan to current influencers and celebrities like Manu Rios and Sundy Jules.
